Professional Summary

I am a multi-talented creative professional with expertise in music production, graphic design, video editing, and web page designing. Proficient in **Adobe Photoshop and Premiere Pro**, I have experience in designing visuals and editing high-quality videos for various projects. With a strong foundation in **Studio One Pro**, I excel in music composition, mixing, and sound design, particularly in South Indian Western-style and Fusion productions.

Additionally, I have experience in **web page designing**, bringing a blend of creativity and technical skills to digital projects. My strong problem-solving abilities, combined with hands-on experience in advanced computing and media production, make me a versatile professional capable of handling diverse creative and technical tasks efficiently.

Employment History

Free Lancer, Music Composer. Chennai, Tamil Nadu

As a **Freelance Music Composer**, I specialize in creating original compositions, arranging music, and producing high-quality soundtracks across various styles. With expertise in **Studio One Pro**, I craft professional audio for diverse projects, including songs, background scores, and church music productions. My skills in sound design and mixing help deliver industry-standard audio compositions.

Key Responsibilities:

- Music Composition:** Create original melodies, harmonies, and arrangements tailored to project requirements.
 - Music Production:** Record, edit, and mix tracks using **Studio One Pro** to achieve professional sound quality.
 - Genre Adaptation:** Specialize in South Indian Western-style and Fusion compositions while being adaptable to various musical genres.
 - Collaboration:** Work closely with artists, vocalists, and clients to bring their musical vision to life.
 - Sound Design:** Enhance compositions with high-quality instrumentals, effects, and layered arrangements.
 - Project Management:** Handle multiple projects as a freelancer, ensuring timely delivery and client satisfaction.
- Skills & Expertise:**

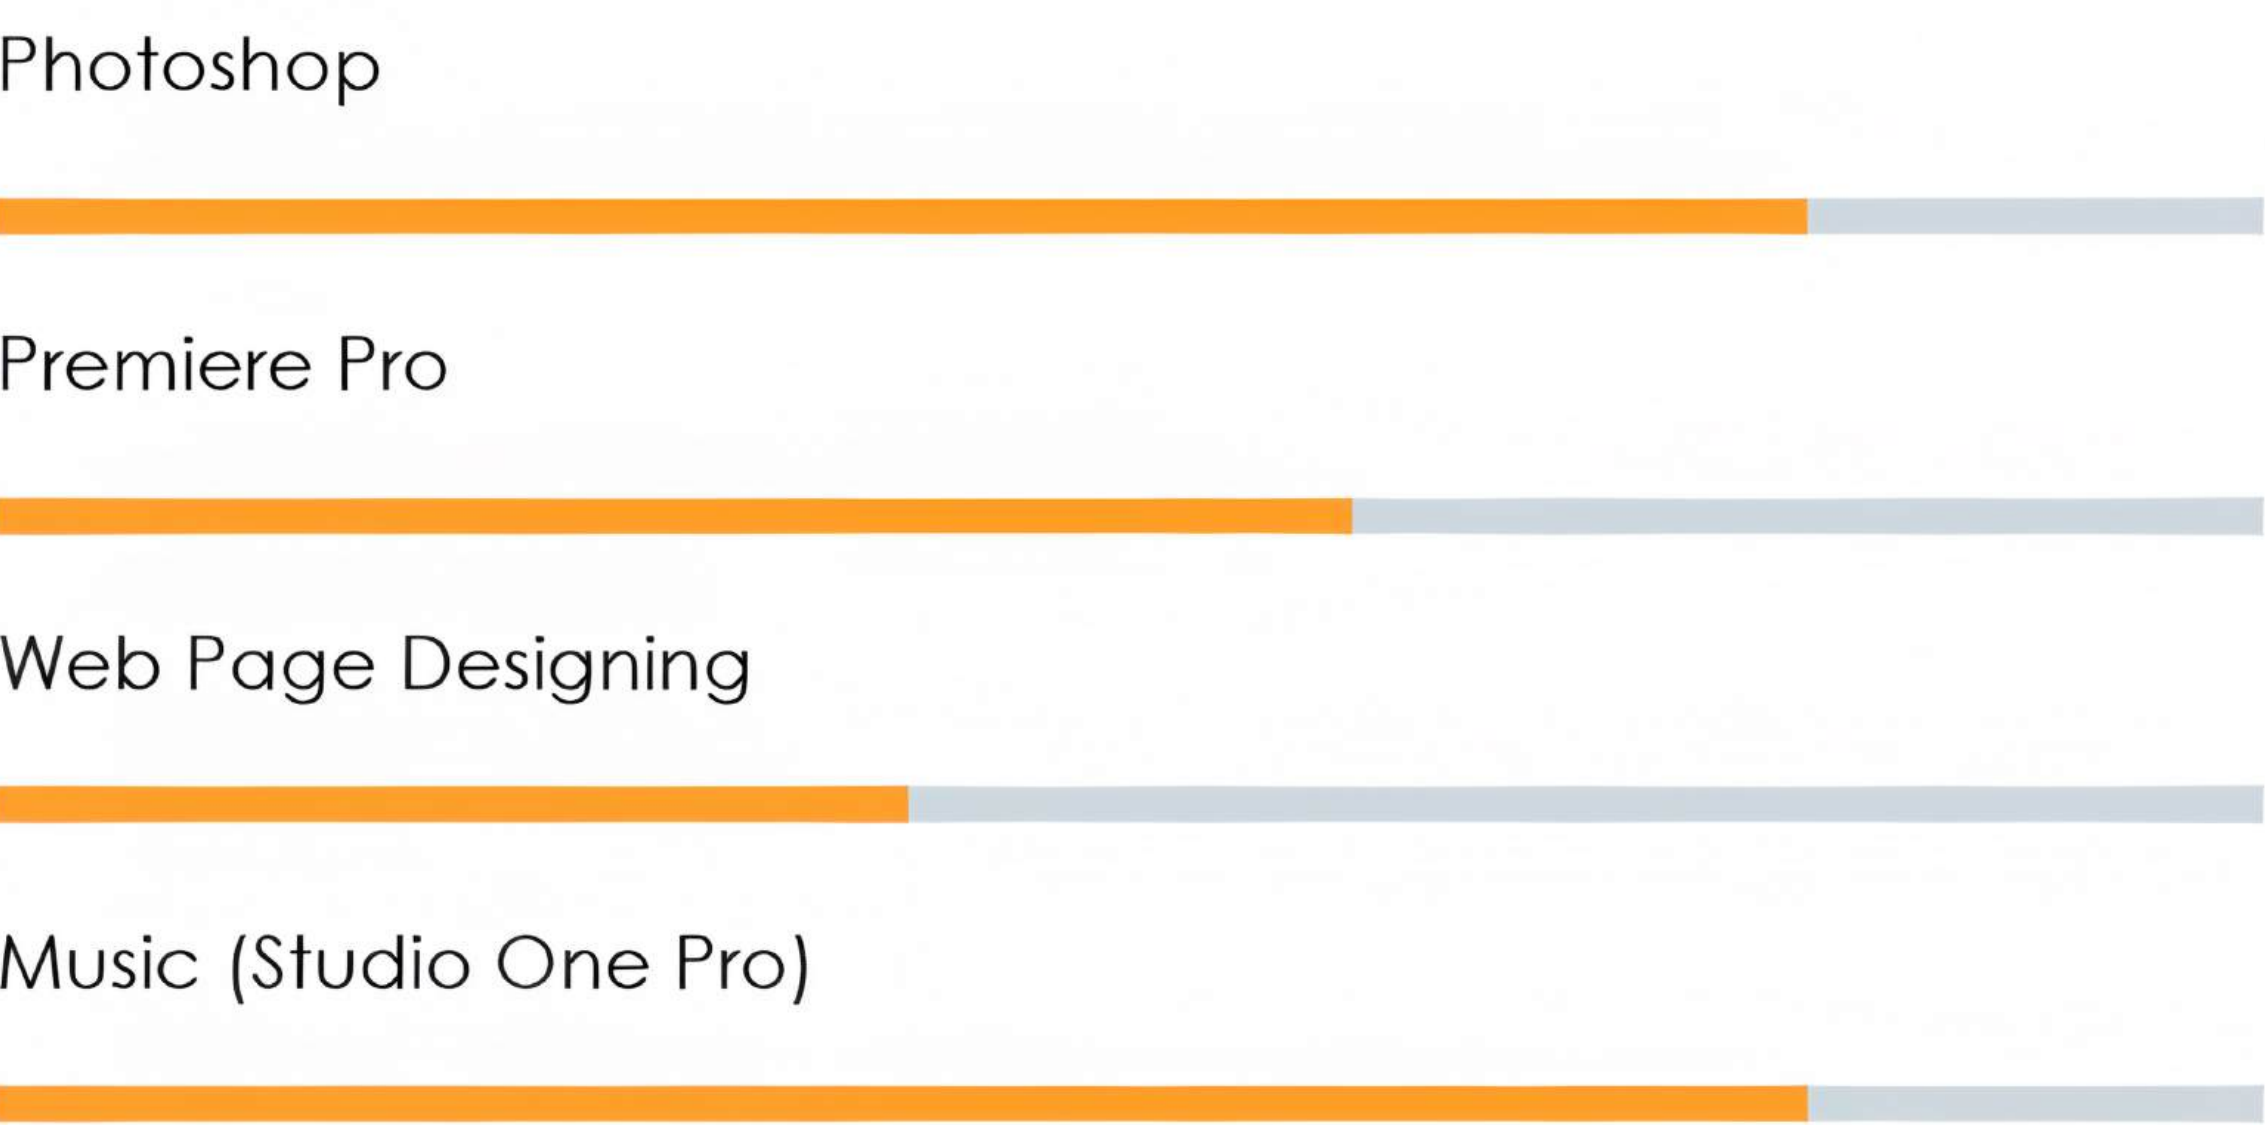

- Advanced proficiency in **Studio One Pro**.
- Strong knowledge of music theory, composition, and arrangement.
- Experience in **mixing and mastering** for professional-quality audio.
- Ability to compose in different styles, including South Indian vintage music.
- Attention to detail and a creative approach to sound design.
